CGPA: **10.0**

Skills

- **Soft Skills:** Communication Skills, Team Management
- **Technical Skills:** Frontend Development, Database Management, Data Structures and Algorithms (DSA)
- **Programming Languages:** C++, Java, Python
- **Web Technologies:** HTML, CSS, JavaScript, ReactJS, Flask, Django
- **Database:** SQL

Projects

- **Anomaly File Comparison Application**
Developed a web-based application to compare two Excel files row-wise, column-wise, and across multiple worksheets. The tool reviews differences between datasets and generates comparison results effectively.
Technologies Used: HTML, CSS, Python, Flask, SQLite
- **Great Cart – Online E-commerce Platform**
Designed and implemented a full-featured e-commerce web application with product catalogues, user authentication, cart and order management. Integrated a honey-trap mechanism for secure admin login to detect unauthorized access attempts. The platform ensures a responsive and intuitive user experience.
Technologies Used: Django, HTML5, CSS, Bootstrap, JavaScript, ReactJs.

Internships

- **Full Stack Developer Intern at VaidySys Technologies** April 2025 – Present
Working as a Full Stack Developer intern, contributing to both frontend and backend development. Enhancing skills in ReactJS, Flask, Django, SQL, and modern web technologies. Actively participating in project development and team collaboration.

Certifications

- Python Essentials – Issued by VITyarthi
- Cloud Computing Certification – Issued by NPTEL
